Change Log

Version 0.3.2 - 2025-08-29

- Added changelog display to both main.typ and product-grid.typ documents
- Updated product-grid.typ to use configuration-based date and version (matching main.typ)
- Fixed compression image references to use correct .jpg extensions
- Created optimized compression-k2.jpg and compression-k2-lite.jpg images
- Added Pacific Time Zone notation to CLAUDE.md instructions
- Updated document version synchronization between config and changelog

Version 0.3.1 - 2025-08-28

- Removed multiple wound care products from active guide and moved to removed-items file:
 - Ointments/Gels: Santyl, Silvadene, Vaseline, Aquaphor, Wound Hydrogel (Amorphous)
 - Filler/Medicated: Medihoney Alginate, Gelling Fiber, Xeroform (noted oil emulsion as replacement), Prisma Promogran, Silvasorb, Aquacel Ag, Alginates/Silver, Hydrofera Blue ReadyTransfer, Xtrasorb Super Absorbent
 - Cover Dressings: Allevyn, Tegaderm Absorbent, DuoDerm, ABD & Rolled Gauze, Coban/ACE, Netting/Stockinette, Tegaderm Film, Bordered Gauze/Island Dressing, Hypafix Retention Tape, Allevyn Life Lite 4x4, Allevyn Life Lite Large, Silicone Foam with Border 6x6, Silicone Foam with Border 3x3
- Updated configuration files to reflect product removals
- Maintained all removed items in separate JSON file for reference

Version 0.3.0 - 2025-08-23

- Major refactoring: unified single JSON data source, implemented smart image optimization, added multi-layer compression wrap category, reorganized additional supplies with subcategories, improved image alignment in grid layout, removed unnecessary catalog items, created automated version management system

Version 0.2.0 - 2025-08-23

- Added multi-layer compression wrap category, unified single JSON data source, optimized images for print PDFs, added organized additional supplies section
